Podium dialogue on December 6, 2023

## Attracting, developing and retaining international experts: Support from Leipzig University

**In English with simultaneous translation into German**

How can international experts be recruited, developed and retained? An introductory lecture by Utz Dornberger outlines the problem and provides insights into the intentions of international students and graduates in Saxony when it comes to remaining at their university after graduation. Afterwards we will present four services and possible solutions proposed by Leipzig University, which will be discussed with invited guests and the audience. We look forward to your participation and a productive dialogue.

*With Prof. Dr. Utz Dornberger, Dr. Anna Flocke, Gunnar Kaßberg, Jazmin Ponce und Dr. Alireza Ansari (from left to right)*
